

The plant smells good so put lots in a
air machine with the same smell)

A wind and water resistant hedge ~~made from~~ taking the
shape of ivy and ~~is~~ made in layers to make it wind
resistant.

Another wind resistant "hedge":
it is long enough to catch
wind and protect your campsite
from the wind. This is also
waterproof but raindrops may
enter through the gaps.

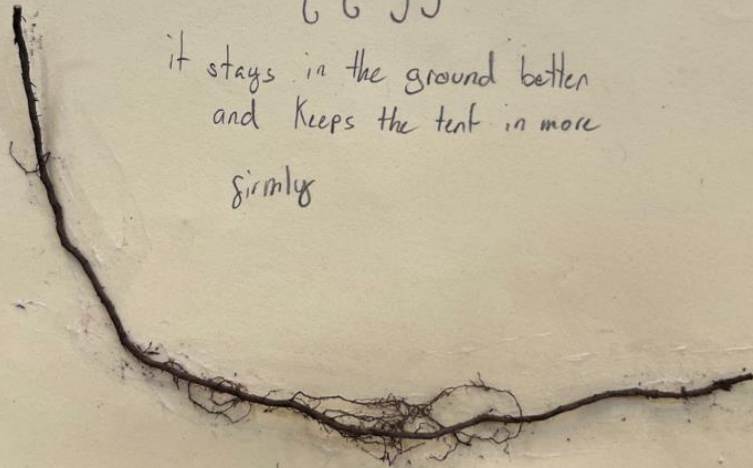

Sharp leaves are genius even winter

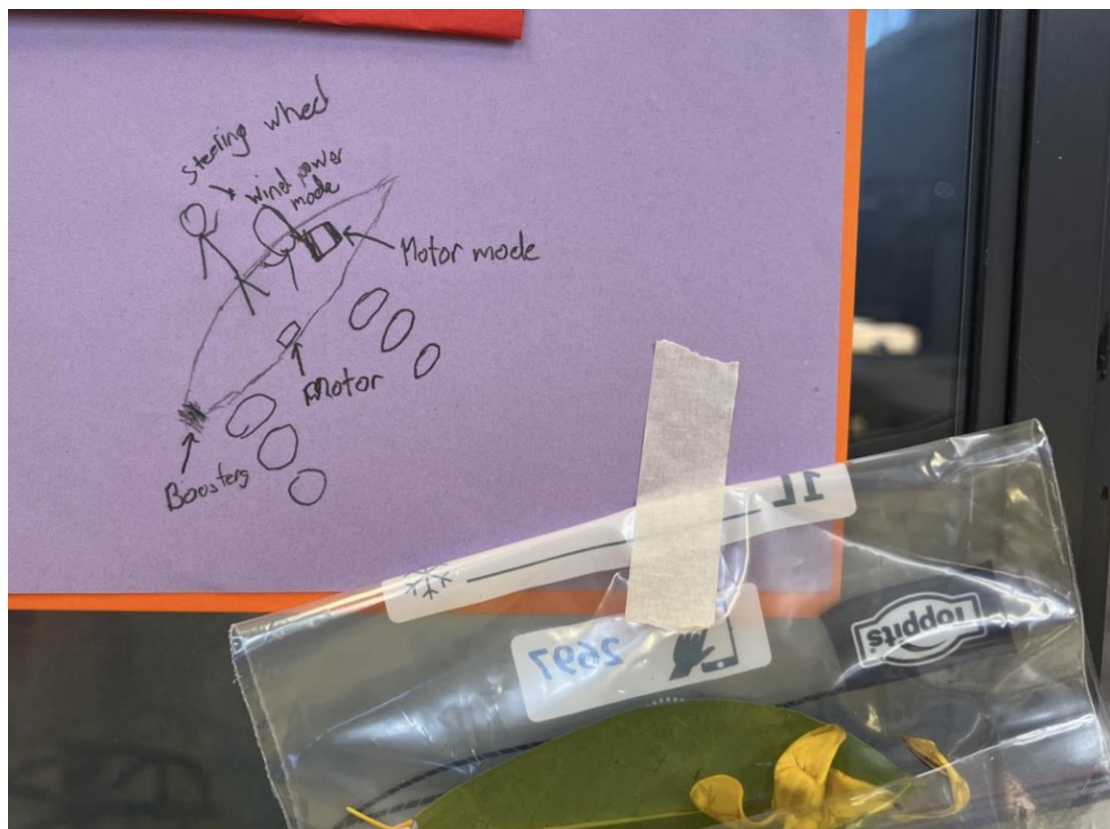

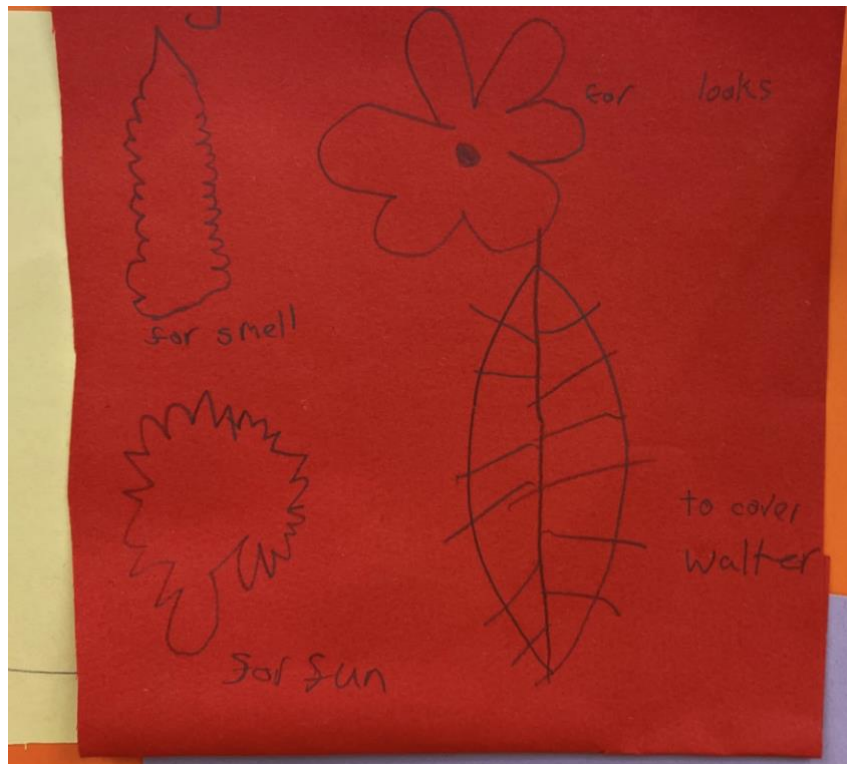

Tent hooks that resemble tree roots

it stays in the ground better
and keeps the tent in more
firmly

WATER PROOF TEDDY BEAR

Made out of:
Stachys
byzantina
Silver Carpet

This leaf is fluffy
and water proof.

Sketch:

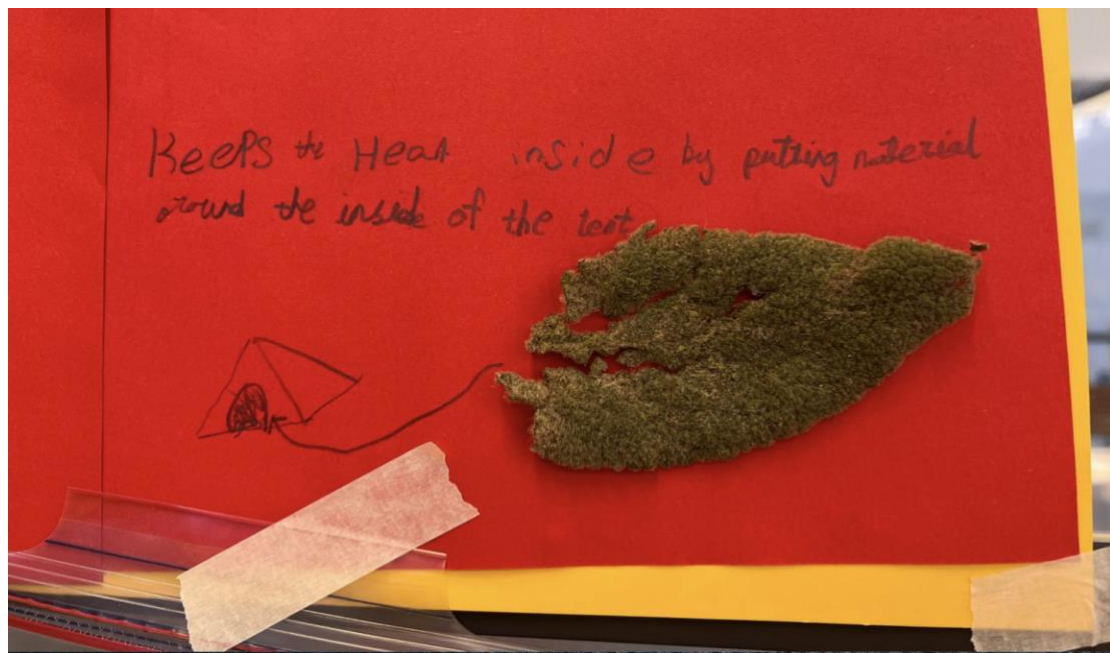

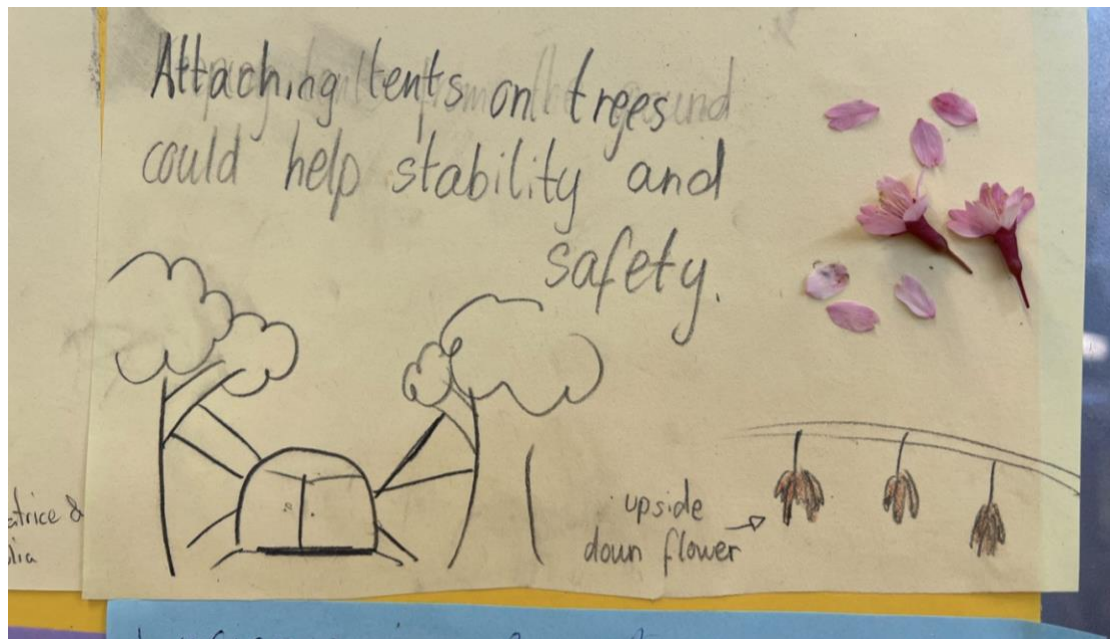

Water Proof T.U. 1
water proof.

Water Proof Teddy bear (fluffy)

What is it made out of Stachys byzantina (silver carpet)
This leaf is fluffy and water-proof. It is for
homesick children.
Sketch:

this
design has a
sturdy base
with layers
of spinning
propellers on top
to create
energy in
unpopulated areas
